Greetings from KCP,

I am so delighted to communicate with you all through our second edition of 'Anusandhan'! I would like to start with one very famous quote of Dr.APJ Abdul Kalam-

" All of us do not have equal talent, but all of us have an equal opportunity to develop our talents"

It states that we should learn to grab the opportunity and showcase our talents. Each of us have some unique creativity in ourselves. Just like every educationist, I wish to provide our students a path to explore the fathomless boundaries of knowledge in every sphere. I sincerely believe that for a better, real, educated and enlightened future of students, college plays the most vital role and as a Principal, I extend my whole-hearted support towards this.

I am proud of the high quality staff and excellent teaching programs at KCP. The staff continuously amaze me with hard work, commitment and ability to provide and promote an excellent learning environment. I affirm that we at our Institution are there to nourish these saplings. But not without your support, parents! This institution envisages an all around and balanced education based on sound intellectual, physical, moral and social formation. Special stress has been laid on the character formation and development of personality. The aim is to make students erudite, patriotic, law abiding and ceaselessly seeking excellence, with a deep concern for all. Whatever you have learned from this institution will enable you to stand in good stead in every situation. It will guide and make your life successful and happy. I will continue to strive in fulfilling my responsibilities that have been entrusted to me by the management. I wish all our students, a great future and all the success in life.
